

IMPARTIALITY POLICY

QSI recognizes the importance of impartiality in the conduct of its certification activities; therefore, it establishes and promotes the following guidelines:

- The means used by QSI to obtain financial support under no circumstances compromise the impartiality, integrity and honesty of its activities.
- The QSI audit and certification services are accessible to all applicants.
- Do not offer consulting or internal audit on the standard certified management system.
- Not certifying the certification activities of another certification body.
- Ensure that its personnel are free from external and internal pressures that may influence the results of the audits carried out.
- Define actions to respond to sources of threat to the impartiality of the Certification process.
